

# Facial Reflexology

**Lone Sorensen** *Sorensensistem TM*

The method of **Facial Reflexology** forms a complete treatment in itself.

**Lone Sorensen**, a Danish Reflexologist, has a background in acupuncture, cranio-sacral therapy, kinesiology, reflexology and laser therapy. Lone has been developing her methodology of **Facial Reflexology** for over 30 years, combining Traditional Chinese “meridian and acupuncture” theory, South American Mapuche Facial Zones, Vietnamese Dien Cham, Dr. Yamamoto’s Cranial Points, with the addition of neurological points, to affect the whole body. Truly creating the most integrated, holistic treatment system for the face.

Through manual exploration of the facial zones, the body’s primary energy imbalances are detected. Treatment involves a range of techniques, including the stimulation of acu-points and meridian zones, cranial points and zones, as well as combinations of specific nerve points, chosen from 564 identified points in the face. It is the combining of these methods that has brought such successful results.

Lone has found that Facial Reflexology works very quickly into the central nervous system, has no contra-indications and is particularly beneficial for neurological disorders, including pain control. A fantastic treatment for children as well as adult.

**The is a 4 Modules... taught in 2 module blocks = 4 days**

**Each Module is \$350.00**

**Instructor for Module 1&2: Katherine Lee Reece**

**Instructor for Module 3&4: Lone Sorensen**

There will be approximately six months between the two blocks

\*Date to be determined by Lone’s Global Schedule

After completing both blocks there will be approximately 2 months to complete 2 case studies of 5 sessions each and to prepare for written and practical examination. Examination date will be determined by students and Instructor.

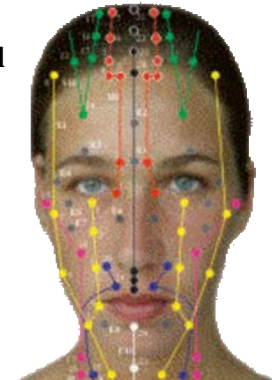

Upon meeting these requirements and passing the examination you will receive

**Diploma in Facial Reflexology sorensensistem .tm**

## Course Content

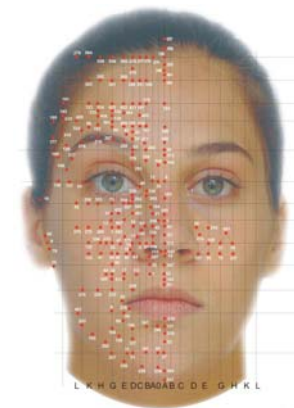

### Module 1 & 2

- Background theory: Mapuche Indian Reflex zones and neurological techniques
- assessment and diagnosis
- The 7-step basic treatment
- Balancing method
- Using of individual Np points
- Hormonal stimulation (plexus balancing)
- Meridianology and Five Element Theory
- cranial points and zones

### Module 3 & 4

- 564 neurological points
- stimulation of facial muscles
- cranial acupressure
- meridian balancing
- Yamamoto method
- Colon link method
- plans for specific problems and developing the treatment

Students are asked to complete two case studies. Guidance will be given.
